Professional Summary

Senior Frontend Developer with experience in building fast, scalable web apps using Vue.js, React, and modern frameworks. Skilled in integrating AI tools like OpenAI API, CursorAI, Claude, and Python to boost productivity and automate workflows. Strong background in performance optimization, remote collaboration, and delivering product-focused solutions in agile environments.

Core Skills & Expertise

Primary Skill	JavaScript, HTML, CSS, Python — Strong in modern UI development and responsive design
Frameworks, CMS & Libraries	Nextjs, React, Vue.js, Vuex, Redux, AngularJS (basic), WordPress, Strapi, Webflow — Built scalable SPAs and content-driven apps.
UI Libraries & Styling	Tailwind CSS, Bootstrap, Material UI, Ant Design, Bulma, Vuetify — Designed clean, consistent, mobile-friendly UIs.
Code Quality & DevOps Tools	ESLint, Prettier, Jenkins, Husky, Git, GitLab, GitHub CI/CD, Jira, LaunchDarkly — Ensured clean code, CI/CD, and agile delivery.
AI & Productivity Tools	OpenAI API, CursorAI, Claude — Used for chatbot dev, content generation, data filtering, and workflow automation.
Cloud & Deployment Platforms	AWS, Vercel, Heroku, Render, GitHub Pages — Deployed scalable, production-ready web applications.
APIs & Integrations	REST APIs, GraphQL, Postman, JWT, Auth0 — Enabled secure, real-time communication between frontend and backend systems.
Database Familiar with	Mongo db, MySQL, PostgreSQL, SQL — Experienced with structured data management and integrations
Specialized Areas	Responsive web design, code to PDF conversion, print & download, Reusable component Architecture development, Performance optimization, R&D

EXPERIENCE

- **InsureXtech Pvt ltd (Policy Advisor) Sr. Software Developer** -Nov 2021 - PRESENT

Job Role - Senior Software Developer

- Led the development of insurance tools using Vue.js and Ruby on Rails.
- Enhanced website performance, achieving a 90+ score on PageSpeed Insights and an A grade on GTmetrix.

- Implemented SEO strategies, improving visibility and user engagement.
- Migrated codebase from Vue 2 to Vue 3, ensuring modern standards and maintainability.
- Integrated GraphQL APIs via Strapi for efficient data management.
- Developed admin panels using Vue.js, Vuex, and Vuetify, adhering to best practices.
- Improved website performance metrics significantly, leading to enhanced user satisfaction.
- Successfully led a team in transitioning to modern frontend frameworks and practices.
- Integrated AI tools into development workflows, increasing efficiency and innovation.
- Successfully implemented **component-based architecture**, enabling reusable components across layouts and accelerating the development of new pages with consistent design and functionality.

AI Integration Projects

- Developed custom chatbots using the OpenAI API, enabling dynamic user interactions.
- Utilized Python with AI tools to automate data extraction and summarization from various document formats.
- Employed CursorAI to generate code snippets, accelerating development processes.
- Converted UI/UX designs into functional code using AI-driven tools, reducing development time.

Technical environment: Vuejs, Vuex, React, Redux, Graphql, Metronics, Git, Jenkins, Gulp, NodeJs, Styled Components, Bootstrap-4 & 5, tailwindcss, SCSS, RWD, Vue-mask, Vee-validate, React, ES6, and Axios, WordPress, Strapi, core web vitals, Page speed insights, SSH, GTmertix, OpenAI, Chatgpt, CursorAI, Claude

Selected Projects- Policy advisor, Website & Broker Flow, Roost, Myorderbooks

- **Asap (Accenture Contractor) Front-End Developer**-Feb 2021 - OCT 2021

Job Role - Front-End Developer -Team Size- 15+ - Project duration 6 months
- Experience in UI refactoring and creating custom hooks
- Utilized Asynchronous calls to consume the RESTful web API
- Utilized the company's in-built UI component library with ReactJS and Context API
- Developed Unit test cases with Jest
- Utilized Gulp for ESLint validation
- Delivering modules and enhancements as per business requirements using Agile methodology
- Participated in Sprint Planning, Refinement, and Demo with Business and Technology stakeholders

Environment: React.js, Hooks, Asynchronous call, Context, WEB Restful APIs, Launch Darkly, Git, Github, Jenkins, Gulp, Node.js, Styled Component, Less/SASS, RWD, React Router, Confluence, ES6, Axios

Selected Projects- Accredo, Express Scripts, Pfizer

- **NKC Projects Pvt. LTD, Gurgaon Web Developer** Dec 2017 - Jan 2021

Job Role - Web Developer -Team Size- 10+ - Project duration 3 Yrs
- Understanding the functional and business requirements of clients.
- I am collaborating with the tech lead, CTO, and COO on project planning and implementation.
- Designing, building, and configuring applications to meet business requirements
- Integration of JWT Auth for roles and permission-based modules.
- I am responsible for manually deploying front-end projects on the AWS Server.
- Worked on multiple sub-projects for all CRUD operations, and executed activation orders in microservices.
- We have implemented new technologies such as React, Redux, and Axios in a separate sub-module from scratch.

- We utilized SVN for code repository and Teamwork for collaboration and project documentation.
- Experience working with the third-party tool OpenTok to create virtual communication systems.
- Developed page layout, navigation tools, and UI components using React and TypeScript.
- Developed sites compatible with top browsers such as Safari, Firefox, Chrome, and IE.
- Optimized images and web assets for improved speed and performance.

Environment: React.js, Redux, Redux-Thunk, AxiosHooks, Asynchronous call, Context, WEB Restful APIs, JWT, Swagger, Postman. RWD, Material UI, Bootstrap, AWS, npm, jQuery, HTML Print, Lazy loading, CLI, SSH, Bootstrap3, & 4, Material UI, AngularJS, Angular 2,4, Ant design

Selected Project — NYGGS, Automation Suite, Mercury Meeting System, Secured Communication

Multi-Domain Website Development for Clients of NKC

EDUCATION
- MBA in Delivery & Operations — Year 2023- in progress -from Amity online
- Bachelor of Arts in Political Science & English — Year- 2013-2016 -from- MGKVP Varanasi
- Intermediate — Year- 2011-2013 -from- GGP Ballia

Hobbies & Interest

- Traveling and exploring new places
- Hiking and camping in the mountains
- Photography and capturing beautiful landscapes and moments
- Creating blog posts about technical topics.
